VOLUNTARY ANNOUNCEMENT

AI TECHNOLOGY EMPOWERS A NEW EXPERIENCE IN THE TRADITIONAL CARD AND BOARD GAMES

This is a voluntary announcement made by Ourgame International Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”).

The Company is pleased to announce that its subsidiaries have successively entered into the cooperation framework agreements with Shanghai Qitu Intelligent Technology Co., Ltd. (“**Qitu Intelligent**”) and Shanghai SenseRobot Intelligent Technology Co., Ltd. (“**SenseRobot**”), aiming to integrate cutting-edge AI technologies into the traditional card and board games such as Four-nation War Chess and Chinese Chess. This move actively embraces frontier technologies and explores new paths for game intelligence enhancement and business expansion.

Qitu Intelligent is a technology enterprise specializing in artificial intelligence and game intelligence solutions. Its chief scientist, Professor Chen Tao, is a tenured professor at the University of Waterloo in Canada and also serves as the director of the Big Data Laboratory at the University of Waterloo in Canada. His team has successfully incubated multiple mature technological projects in the fields of large models and AI, such as military, education, healthcare and other sectors. Focusing on chess-based games, particularly military chess, Qitu Intelligent is committed to integrating traditional chess with innovative technologies to become a leader in the chess intelligence technology industry.

SenseRobot has leading capabilities in AI technology research and development, especially in constructing complex decision-making and game-playing AI models. Its team has extensive experience in algorithm innovation, deep learning applications, and the commercialization of competitive AI products.

Leveraging their respective resources and technological strengths, all parties will empower the traditional card and board games with AI technology to jointly create a new generation of card and board game products, which will deliver a comprehensive upgrade in intelligence, personalization, and competitiveness experience to millions of card and board game enthusiasts. Furthermore, all parties will engage in multi-dimensional and in-depth cooperation in areas such as data sharing, product development, event operation, and marketing, providing a new paradigm for the intelligent upgrading and sustainable development of the card and board game industry.

The board of directors of the Company believes that the Group's active endeavors in the "AI + Gaming" sector will accumulate valuable experience for future exploration of more intelligent game products and operational models, and it is expected to enhance product competitiveness, attract new user groups and ultimately create sustainable value for shareholders in the long run.

CONTINUED SUSPENSION OF TRADING

At the request of the Company, trading in the shares of the Company on The Stock Exchange of Hong Kong Limited (the "**Stock Exchange**") has been suspended with effect from 9:07 a.m. on Thursday, 28 March 2024, and will remain suspended until the Company meets all resumption guidance, remedies the issues causing its trading suspension and fully complies with the Rules Governing the Listing of Securities on the Stock Exchange to the Stock Exchange's satisfaction. The Company will keep the public informed of the latest developments by making further announcement(s) as and when appropriate.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.

By Order of the Board
Ourgame International Holdings Limited
