VOLUNTARY ANNOUNCEMENT

INVESTING STRATEGICALLY IN CRYPTOCURRENCY AND DRIVING THE INTEGRATION OF BLOCKCHAIN TECHNOLOGY WITH THE GROUP'S BUSINESS

This is a voluntary announcement made by Ourgame International Holdings Limited (the “**Company**”, together with its subsidiaries, the “**Group**”).

Allied Gaming & Entertainment Inc. (“**AGAE**”, Nasdaq: AGAE), a subsidiary of the Group, has invested in Bitcoin (BTC) and expanded its holdings of Ethereum (ETH). This marks the formal launch of AGAE’s strategic plan to incorporate cryptocurrencies into its balance sheet and lays the foundation for its broader blockchain applications and tokenisation of Real World Assets (“**RWA**”). This move aims to drive deep integration between blockchain technology and the Group’s core gaming and entertainment industries.

Incorporating BTC and ETH into a diversified asset allocation portfolio is the first phase of AGAE’s comprehensive digitalisation strategy. Moving forward, AGAE will continuously advance in the following areas:

- Expanding blockchain-based payment method across AGAE’s global IP portfolio, including eSports events, gaming platforms and immersive entertainment venues;
- Developing a proprietary RWA tokenisation model such as live entertainment rights, property management revenue and film/animation IP monetisation; and
- Laying the foundation for integrating stablecoins and utility tokens to enhance user engagement, facilitate cross-border transactions, and bolster liquidity across the entire ecosystem.

AGAE's chief executive officer James Li stated: "We regard cryptocurrency not merely as a store of value, but as a strategic cornerstone for driving the future development of AGAE's business. Integrating blockchain and digital assets into our ecosystem is a natural extension of our mission to connect users globally and create innovative financial experiences through gaming and entertainment."

The Company believes that the combination of blockchain technology with the gaming and entertainment industries will reshape the industry value chain, and investment in crypto assets serves as an important starting point for this strategic layout. This initiative not only reserves resources for the Group for future technological upgrades and business expansion but also demonstrates the Group's determination to embrace technological innovation and lead industry transformation.
